## **Press Release**

### **To the company DROMEAS goes the national award EMAS 2010 from the E.E.**

The chamber of environment, energy and climatic change (YPEKA) chose to give to the company DROMEAS, the national award EMAS 2010 of the European Union General Management for the Environment. The award ceremony will take place in Brussels on the 25<sup>th</sup> of November 2010. Also the EMAS Committee of YPEKA has put forward DROMEAS as a contender for the European award EMAS 2010, in the medium size business category.

This year's EMAS awards focused on the subject "Efficiency in the use of natural resources". This important European recognition rewards the long effort of DROMEAS in the use of renewable or recyclable materials, the modification of production processes and systems through investment in clean technologies, reuse of waste wood for heat generation, the implementation methods for treating sewage and other environmental actions. Besides the company's environmental policy as a total, is certified through the application of international recognition with the following certificates::

- ISO 14001:2009
- PEFC system, according to the European Norm EN 45011
- EMAS according to the European Norm 761/2001

This new recognition from the European Union acknowledges the successful and continually rising course of the company DROMEAS and is a benchmark for an even more creative future in both internal and external markets.
