Press Release

Today on 06-01-2020, a contract was signed between the German Army and Dromeas S.A., following a successful tender procedure. The contract is for 2+1+1 for the production of sixty thousand desks with electric height adjustability and worth approximately 15.000.000 Euros.

This new contract is additional to the 5.000.000 euros contract with a duration of 4 months for the production of special cabinets, and which was signed in the beginning of November 2019.

The start of deliveries for both contracts is programmed to begin within February 2020. The technical specifications of the produced products is according to the European Standards for ergonomics, safety, endurance, according to the German Standards GS and during their production all international ISO standards for quality, environmental management and health and safety are followed.

This new success which came about because of the strict quality standards that the company adheres to, confirms once more the high quality standard and the competitive value of the furniture that Dromeas produces.
